Dear Bryan Kim,

First, I want to thank you for the opportunity to evaluate your product My Best Friend Joint Health Plus CoQ10. I am very impressed with the research that you have put into determining the appropriate dosage of each ingredient and the quality of ingredients you are using. The Quality Assurance and bench tests show excellent product management and will result in a high quality supplement for our small pets.

I have been a supporter of Glucosamine, Chondroitin MSN products and have recommended these products to clients for years. It has always been difficult to break down large dosages for the small dogs. Thank you for creating a product that focuses on the smaller pets. The inclusion of additional ingredients to stimulate the immune system and antioxidants will all improve the health and well being of our beloved pets (family members).

I have seen a great benefit in the health and comfort of the pets that have started on these supplements and I hope that those that use your product will see the benefits and much happier pets.

Thank you again for including me in your project. I wish you the best and thank you again for creating a product targeting the smaller pets.

Sincerely,

Dr. Donna J. Sowder, DVM
Veterinarian and clinic owner
